INDEPENDENT PRACTITIONER'S REVIEW ENGAGEMENT REPORT

To the Council of The Synod of the Diocese of Calgary

We have reviewed the accompanying financial statements of The Synod of the Diocese of Calgary (the organization) that comprise the statement of financial position as at December 31, 2025, and the statements of operations, changes in net assets and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian accounting standards for not-for-profit organizations (ASNPO), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Practitioner's Responsibility

Our responsibility is to express a conclusion on the accompanying financial statements based on our review. We conducted our review in accordance with Canadian generally accepted standards for review engagements, which require us to comply with relevant ethical requirements.

A review of financial statements in accordance with Canadian generally accepted standards for review engagements is a limited assurance engagement. The practitioner performs procedures, primarily consisting of making inquiries of management and others within the entity, as appropriate, and applying analytical procedures, and evaluates the evidence obtained.

The procedures performed in a review are substantially less in extent than, and vary in nature from, those performed in an audit conducted in accordance with Canadian generally accepted auditing standards. Accordingly, we do not express an audit opinion on these financial statements.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the financial statements do not present fairly, in all material respects, the financial position of The Synod of the Diocese of Calgary as at December 31, 2025, and the results of its operations and its cash flows for the year then ended in accordance with ASNPO.

1. PURPOSE OF THE ORGANIZATION

The Synod of the Diocese of Calgary (the "organization") is a not-for-profit organization of Alberta. The Diocese is a religious organization that consists of the Bishops of the Diocese; the clergy of the Diocese who hold the license of the Bishop; those representatives of the laity who have been duly authorized under the Constitution of the Synod to be members of the Diocesan Synod (including members elected by the Parishes and members appointed by the Bishop); and, as officers of the Diocesan Synod, the Dean, the Executive Officer, the Chancellor, the Vice-Chancellor, the Registrar, the Secretary and the Treasurer. The Synod of the Diocese of Calgary was incorporated under a private ordinance of incorporation (Ordinances of the North-West Territories, 1891 and amended by Statutes of Alberta). As a registered charity the organization is exempt from the payment of income tax under Section 149(1) of the Income Tax Act.

The Anglican Diocese of Calgary includes approximately 9,500 Anglicans in 64 active parishes in the southern part of the Province of Alberta. It provides administrative, pastoral, liturgical, and ecclesiastical oversight and support for the Anglican congregations within its geographic boundaries.

2. RELATED ENTITIES AND CONSOLIDATION

The Diocese exercises control over the assets of its congregations by virtue of its ability to approve or disallow any purchase, modification, alteration, or financing of the land and buildings within the Diocese. However, each of the congregations is individually immaterial to the operation of the Diocese and therefore no financial information relating to the operation of individual congregations is required to be presented in these financial statements.

The Diocese also exercises control over a number of related operations or programs including the Dinka congregation, Cursillo and the Companion Diocese Committee. However, these entities are all managed and operated separately from the Diocese and, since they are individually immaterial to the operation of the Diocese, no financial information relating to the day-to-day operation of these entities is presented in these financial statements. The Refugee Committee, holds substantial funds in trust related to the refugee sponsorship program. The trust assets and liabilities have been included in these financial statements.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements were prepared on a going concern basis in accordance with Canadian accounting standards for not-for-profit organizations (ASNPO) and, in management's opinion, with consideration of materiality and within the framework of the following accounting policies:

Fund accounting

The Synod of the Diocese of Calgary follows the restricted fund method of accounting for contributions.

The Operating Fund accounts for the Diocese's program delivery and administrative activities. This fund reports unrestricted resources, and resources restricted internally by the Diocese.

The Capital Fund reports the assets, liabilities, revenues, and expenses related to the Diocese's tangible capital assets, including the land and buildings of its congregations, as well as capital reserve funds for the Diocese and the Parishes.

The Externally Restricted Fund reports those resources that are restricted in use by the donor. Most restricted resources are comprised of trust funds that have been established by donors who have specified the purpose and use of both the capital and income of the funds.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Financial instruments

Financial instruments are recorded at fair value when acquired or issued. In subsequent periods, financial assets with actively traded markets are reported at fair value, with any unrealized gains and losses reported in income. All other financial instruments are reported at amortized cost, and tested for impairment at each reporting date. Transaction costs on the acquisition, sale, or issue of financial instruments are expensed when incurred.

Financial instruments subsequently measured at amortized cost include cash and cash equivalents, accounts receivable, loans receivable, assets held in trust, accounts payable and accrued liabilities, and sponsor deposits. Investments and managed accounts are measured at fair value.

Measurement uncertainty

The preparation of financial statements in conformity with Canadian accounting standards for not-for-profit organizations requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Such estimates are periodically reviewed and any adjustments necessary are reported in earnings in the period in which they become known. Actual results could differ from these estimates.

The most significant estimates include: allowance for doubtful accounts, amortization and the estimated useful lives of property, impairment of property, valuation of investments and managed accounts, and provision of accrued liabilities.

Revenue recognition

The Synod of the Diocese of Calgary follows the restricted fund method of accounting for contributions.

Apportionment from parishes is recognized in revenue in the year in which it is assessed and deemed collectible. Every year, the Diocese sets aside a certain estimate of funds as apportionment reduction. Any apportionment reduction applications approved by the Council are recorded as apportionment reduction.

Restricted contributions related to general operations are recognized as revenue of the General Fund in the year in which the related expenses are incurred. All other restricted contributions are recognized as revenue of the appropriate restricted fund in the year received.

Unrestricted contributions are recognized as revenue of the Operating Fund in the year received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

The Diocese acts as an agent to collect contributions and pay the clergy payroll and building insurance on the parishes behalf. As the Diocese only acts as an agent, it only recognizes contribution revenue when it issues donation receipt directly to the donor and expenses in grants and subsidies to parishes expenses when it provides relief to the parishes.

Investment income is recognized in the period in which it is earned, net of investment fees. Investment income related to managed accounts are recognized on a net basis as these funds are managed on behalf of the related entities and are not to the benefit of the Diocese. Realized and unrealized gains and losses on investments are recognized in the period in which they arise.

(continues)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Cash and cash equivalents

Cash and cash equivalents includes cash and short-term investments that are highly liquid with original maturities of 3 months or less, are readily convertible to known amounts of cash, and are subject to insignificant risk of change in value.

Investments

The Diocese operates a "Consolidated Investment Fund" to hold long-term investments on behalf of the three funds (Operating, Capital and Externally Restricted) and related entities such as Parishes and Trusts. Amounts belonging to related entities are reported as Managed Accounts, which are comprised of amounts managed by the Diocese on behalf of related entities (such as parishes and trusts). Accordingly, the market adjustments, income, deposits and withdrawals of these accounts are not reflected in the Diocese's Statement of Operations and Changes in Net Assets.

All gains and losses from the sale, collection, or other disposition of investments under the Diocese's own funds are accounted for in the fund that owned the assets. When a parish ceases its operation, the Diocese will recognize the residual balance of the managed accounts as revenue from trust and restricted contributions.

Property

The Diocese, through its Ordinance of Incorporation together with its Constitution and Canons, controls, holds in trust, or owns all Diocesan and Parish real property. The Diocese has acquired the applicable interest in all of these properties with the assistance of the congregations in the Diocese and the Diocese's interest is deemed to take effect when the property is available for use. In situations where the congregation has ceased to operate, the use and enjoyment of the property reverts to the Diocese. The Diocese also owns other property used for particular purposes. All land and buildings are recorded at cost, with cost being established using available records. For older properties, a best estimate or, in the absence of records, a nominal value has been assigned. Properties that have been acquired by bequest or gift are recorded at fair market value at the date of contribution. When fair value cannot be reasonably estimated, the property is recorded at nominal value. Also, when fair value is not available, contributed tangible capital assets are recognized at nominal value.

Property is stated at cost or deemed cost less accumulated amortization and is amortized over its estimated useful life on a straight-line basis at the following rates:

Land	N/A
Buildings	40 years
Furniture and equipment	3 to 5 years

Impairment of long lived assets

The organization tests for impairment whenever events or changes in circumstances indicate that the asset no longer contributes to an organization's ability to provide goods and services, or that the value of future economic benefits or service potential associated with the asset is less than its net carrying amount. When a test for impairment indicates that the asset no longer contributes to an organization's ability to provide goods and services, or that the value of future economic benefits or service potential associated with the asset is less than its net carrying amount, an impairment loss is recognized to the extent the carrying value exceeds either the fair value or the replacement cost as determined on an asset-by-asset basis.

(continues)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Net assets

a) Net assets invested in property and equipment represents the organization's net investment in property and equipment which is comprised of the unamortized amount of property and equipment purchased with restricted funds.
b) Internally restricted net assets are funds which have been designated for a specific purpose by the Diocese's Council.
c) Externally restricted net assets are funds which have been designated for a specific purpose by the specific donor.
d) Unrestricted net assets comprise the excess of revenue over expenses accumulated by the organization each year, net of transfers, and are available for general purposes.

Donated goods and securities

Donated goods and securities are recorded at their fair market value at the time of the donation.

Contributed services

The operations of the organization depend on both the contribution of time by volunteers and donated materials from various sources. The fair value of donated materials and services cannot be reasonably determined and are therefore not reflected in these financial statements.

4. FINANCIAL INSTRUMENTS

The organization is exposed to various risks through its financial instruments and has a comprehensive risk management framework to monitor, evaluate and manage these risks. The following analysis provides information about the organization's risk exposure and concentration as of December 31, 2025.

Credit risk

Credit risk arises from the potential that a counter party will fail to perform its obligations. The Diocese's credit risk is primarily attributable to its cash, investments, accounts receivables (Note 6) and loans receivable (Note 7). The Diocese mitigates its exposure to credit risk pertaining to cash and investments by placing its funds with reputable financial institutions and investment managers. The Diocese mitigates it exposure to accounts and loans receivable effectively through credit approval and monitoring procedures in the normal course of business.

Furthermore, the Diocese collects monthly pre-authorized deposits and remits payroll and building insurance payments on behalf of its parishes. The Diocese is exposed to credit risk from its parishes if they failed to reimburse the Diocese for the expenses incurred and NSF returns (Note 13).

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency rate risk, interest rate risk and other price risk. The organization is mainly exposed to currency risk and market risk.

Currency risk

Currency risk is the risk to the company's earnings that arise from fluctuations of foreign exchange rates and the degree of volatility of these rates. The organization is exposed to foreign currency exchange risk on portfolio investments denominated in U.S. dollars. At December 31, 2025, the foreign content of the investments was 21% (2024 - 23%) (Note 5). The Diocese does not use derivative instruments to reduce its exposure to currency and other price risk.

Interest rate risk

Interest rate risk is the risk that the value of a financial instrument might be adversely affected by a change in the interest rates. In seeking to minimize the risks from interest rate fluctuations, the organization manages exposure through its normal operating and financing activities. The organization is exposed to interest rate risk primarily through its floating interest rate bank credit facilities (Note 13).

Other price risk

A considerable portion of the Diocese financial assets is in equity securities, such as common shares, or in equity-like securities, such as mutual funds. The value of these securities changes in response to changes in the business, financial condition, management and other relevant factors affecting the company that issued the securities, as well as changes in the general economic condition of the markets in which they operate, thereby exposing the Diocese to these fluctuations in value.

The fair market value of the investments at December 31, 2025 is $22,063,444 (2024 - $21,799,006) (Note 5).

5. INVESTMENTS AND MANAGED ACCOUNTS

The Diocese operates a "Consolidated Investment Fund" to hold long-term investments on behalf of the three funds (Operating, Capital and Externally Restricted) and related entities such as Parishes and Trusts. Amounts belonging to related entities are reported as Managed Accounts, which are comprised of amounts managed by the Diocese on behalf of related entities (such as parishes and trusts). Accordingly, the market adjustments, income, deposits and withdrawals of these accounts are not reflected in the Diocese's Statement of Operations and Changes in Net Assets (Note 2).

The following table summarizes the annual transactions related to the investments, which are held with a third party investment manager:

Accounts payable and accrued liabilities include $nil (2024 - $nil) of government payables.

10. ASSETS HELD IN TRUST AND SPONSOR DEPOSITS

The Diocese, through a refugee committee, takes part in the Private Sponsorship of Refugees (PSR) program by Immigration, Refugees and Citizenship Canada (IRCC) as a Sponsorship Agreement Holder (SAH). It works with the Canadian Refugee Sponsorship Agreement Holders Association and provides guarantee co-sponsors to bring privately sponsored refugees to Canada.

In general, co-sponsors are responsible to provide funding to the refugee for the settlement period. Where the co-sponsor is responsible, the Diocese holds the trust fund until the end of the 12-month settlement period for guarantee purposes. In addition, the Diocese does not issue a donation receipt for the funding from the co-sponsor and the co-sponsor is responsible for any contingent expenses.

The Diocese does not act as a principal in the refugee sponsorship program: a) it is not primarily responsible for providing financial support to the refugee family, and b) the co-sponsor is responsible for providing financial security to the refugee and the implementation of the settlement plan. The Diocese acts as the guarantor to the Canadian Refugee Sponsorship Agreement Holders (SAH) Association and Immigration, Refugees and Citizenship Canada (IRCC) for the co-sponsor.

Trust fund received from co-sponsor for a specific refugee application is reported as assets held in trust and sponsor deposits until the disbursement of the fund to the refugee over the 12-month settlement period. Any remaining fund, with interest, will be refunded to the co-sponsor at the end of the settlement period. The Diocese estimates the amount required for the sponsor family based on the family size, age of the children, and the living standard of Calgary and collected from the co-sponsor before the application is submitted to the Canadian Refugee Sponsorship Agreement Holders (SAH) Association. Once the refugee arrives, the Committee will disburse the fund to the co-sponsor to support the refugee family.

13. GRANTS AND SUBSIDIES TO PARISHES

During the year, the Diocese advanced gross payroll and building insurance payments totalling $5,568,156 (2024 - $5,284,092). Payroll and insurance grants of $57,240 (2024 - $57,240) were provided to parishes. During the year, the Diocese assessed net apportionments of $1,198,288 (2024 - $1,142,790) and did not collect $42,032 (2024 - $52,379) which was recorded as a grant. During 2025, $nil (2024 - $nil) was paid in approved grants and subsidies of expenses paid on behalf of parishes.

14. CONTINGENCIES AND COMMITMENTS

Contingencies:

From time to time the Diocese receives claims against the Diocese, however, at this point the likely outcome of outstanding claims is not determinable nor is any potential loss, if any reasonably estimable.

Commitments:

The Diocese is committed to advance payroll and building insurance payments on behalf of its parishes. The Diocese will then collect from the parishes behalf. From time to time, parishes facing financial difficulty may not be able to fulfill its obligation to reimburse the Diocese (Note 13).

The Diocese offers on behalf of its parishes to collect pre-authorized monthly donation payments from their donors. From time to time, the Diocese will suffer financial loss due to NSF returns and charges days after paying out to its parishes (Note 13).

Pension:

Diocesan office staff and all clergy in the Diocese in receipt of salary participate in the General Synod Pension Plan, a multi-employer target benefit pension plan operated by the Anglican Pension Office Corporation, and registered in the Province of Ontario. As payroll agent for the parishes, the Diocese is responsible to remit monthly to the Pension Office Corporation the required employee and employer contributions on behalf of the parishes (2025 - $686,330; 2024 - $627,779). These figures include the required employer contributions on behalf of the Diocese’s direct employees.
